SUMMARY

Front-End Developer with 3+ years of experience specializing in **React** and **Next.js** with hands-on experience building financial dashboards and market analysis tools ,Quick learner with a track record of adopting new technologies and applying them in **production**. Committed to writing **clean, maintainable** code with a creative approach to **problem-solving**. Possesses an understanding of **project architecture, design patterns**, and **state management**, combined with **backend** knowledge for effective **full-stack** collaboration.

SKILLS

Frontend

JavaScript, TypeScript,
React.js, Next.js, HTML5,
CSS3, TailwindCSS, Shadcn UI,
MUI, Ant Design, Bootstrap,
Redux, Redux Toolkit, RTK
Query, React Query, Zustand,
REST APIs, PWA, WebSocket

Tools

Docker, Docker Compose, Git, GitHub, Postman, Figma, Jira, Trello, Storybook, Jest, React Testing Library, Cypress

Soft Skills

Teamwork & Collaboration,
Problem Solving, Time
Management, Commitment &
Responsibility, Fast Learner,
Adaptability

Backend

Python, FastAPI, Django,
PostgreSQL, MongoDB, Redis

PROFESSIONAL EXPERIENCE

Binazir Chart, *FullStack Developer*

03/2024 – Present

- Frontend

- Built a dynamic portfolio table with **AG Grid** and **React** for real-time data entry and front-end calculations
- Developed a transaction system with instant profit/loss using **React Hook Form** and **Zod**
- Built interactive **Treemap**, **Line Chart**, and **Supply & Demand** Pressure indicators for market analysis
- Implemented analytical tools (SMS alerts, profit indicators) with Redux Toolkit for state management
- Optimized React performance via **code splitting**, **lazy loading**, and **caching** – achieving **30%** faster load times
- Built a **reusable** component library with Shadcn UI, custom hooks, and Storybook for maintainability
- Improved Next.js performance with **SSR**, **SSG**, **ISR**, and **image/font** optimization – **40%** page speed boost
- Boosted SEO with **metadata**, Open Graph, **sitemap**, and robots.txt – **40%** Lighthouse score improvement

- Backend

- Built REST APIs with FastAPI, **MongoDB**, and **Redis** caching – reducing response time by 30%
- Implemented user management (**JWT**, authorization, referral, subscription) with **Django** and **DRF**
- Developed admin dashboards and user panels with **Django Templates** and role-based access control

- Bot Telegram

- Built a Telegram bot for **screenshots**, data retrieval, and posts with inline keyboards
- Automated content publishing from site pages to multiple channels with dynamic data
- Containerized bot and backend with **Docker Compose** on a **Linux** server with CI/CD for 24/7 availability

Self-Employed / Freelance, *Freelance Frontend Developer*

03/2022 – 02/2024

- Built React and Next.js apps for small to medium-scale clients with cross-functional teams
- Designed responsive, cross-browser interfaces with React and TailwindCSS
- Boosted **Core Web Vitals** and Lighthouse scores through performance optimization

PROJECTS

E-commerce PWA

02/2024

- Built a modern e-commerce PWA using Next.js 14 (**App Router**) TypeScript, **Shadcn UI**, and TailwindCSS with full dark/light mode
- Implemented PWA with **next-pwa**, form validation using **React Hook Form** and **Zod**, and component documentation with Storybook
- Ensured code quality through **Unit testing** with Jest & React Testing Library, and **E2E testing** with Cypress

FastAPI Ecommerce API

12/2023

- Built RESTful API for e-commerce using **FastAPI**, **PostgreSQL**, and **Supabase**, with **JWT authentication** and role-based access control
- Implemented **CRUD** operations for products, categories, users, and shopping cart management with advanced search and filter
- Documented the API using **Swagger UI** and ReDoc, with database migrations via **Alembic** for seamless schema updates

Admin Panel Dashboard

07/2023

- Built a full admin panel with React, TypeScript, **Ant Design**, and Supabase – with CRUD for users, products, and blogs
- Integrated Supabase auth and real-time data with **Redux Toolkit** (RTK Query) for state and caching
- Developed custom hooks for dark mode and authentication, with a fully responsive interface and dark/light mode support

LANGUAGES

Persian — (Native)

English — (Intermediate)

EDUCATION

Azad University

2014 – 2018 | Tehran

Bachelor of Engineering (B.Eng.)
